

A scatter plot on a grid with 10 major divisions (5x5 grid of squares). The grid lines are dotted. The following shapes are plotted:

- A large red ellipse with a black outline, centered at approximately (2.5, 4.5) with a width of 2 units and a height of 1 unit.
- A black star with a black outline, centered at (5, 5).
- A small red diamond with a black outline, centered at (2.5, 6.5).
- A small red diamond with a black outline, centered at (5.5, 5.5).
- A small blue diamond with a black outline, centered at (9.5, 6.5).
- A small orange diamond with a black outline, centered at (5, 7.5).
- Two small orange circles with black outlines, located at approximately (7.5, 2.5) and (7.8, 2.2).
